We Are Here To Help

At Xact we're not general printers. We are highly specialised printers, focusing solely on producing high quality, innovative labels to meet the specific needs and deadlines of our clients. Having been in the Labelling Industry for over 14 years and with over 90 years of combined experience, we naturally have the appropriate technology and materials to produce whatever labels you require, whether you want simple black and white labels, or more complex barcode labels, we can do it all!

We have established an excellent and friendly team of experts who have not only years of labelling experience behind them, but who know the labelling requirements and regulations that you need to observe. With a sales team that covers the country, help is never far away. We've got the right attitude and capabilities to meet the exacting demands of your business – not only do we test your labels to ensure they are as tough and accurate as you need them to be, but we also provide graphic design and proof reading services to make sure they look professional too. Help is just a click away!
